

- + No installs.
- + No downloads.
- + No Costs.
- + **No worries.**

ScriptSender
Integration made easy

SMIL
SOUTHWEST MEDICAL IMAGING
AFFILIATED WITH RADIOLOGY PARTNERS

ScriptSender makes it easy—and free—for you to communicate with **SMIL**. It's fast and secure transfer of any document, using any EMR, directly to us using a simple print command.

You don't have call to make sure a fax was received, configure an interface, or change your platform.

It's instant integration.

ScriptSender reduces the potential for errors and miscommunication and supports greater continuity of care. It's fast, accurate, secure transfer of patient care information.

How It Works

Here's How ScriptSender Works:

You use a virtual printer, activated with a simple point-and-click in a web browser, to transmit to Your Company's **ScriptSender** server. It's as simple as a print command. **ScriptSender** leverages a driver native to Microsoft Windows to send the document, any document. No installs, downloads, or costs to you!

Here's How ScriptSender Makes a Difference in Your Workflow:

- + **No faxing**
Transfer orders and files from any EMR in one click
- + **No HL7 setup or cost**
Get direct, instant integration in seconds
- + **No delays on results**
Access reports, with links to images, as soon as they are available
- + **No platform requirement**
Integrate any PACS, RIS, or EMR
- + **No CD/DVD burning**
Share images to any device

ScriptSender. Integration Made Easy.
