Southwest Diagnostic Imaging (SMIL) Reaches New Agreement with UnitedHealthcare to Restore In-Network Access

Scottsdale, AZ – [April 14, 2025] – Southwest Diagnostic Imaging, dba SMIL, is pleased to announce that it has reached a new agreement with UnitedHealthcare, restoring in-network access for patients covered under UnitedHealthcare’s Commercial and Medicare plans.

Effective May 1, 2025, patients with UnitedHealthcare insurance can once again access SMIL’s high-quality imaging services at in-network rates. This agreement ensures that patients will be able to receive the patient-centered diagnostic imaging care they have come to expect from SMIL.

“We are delighted to have reached an agreement that prioritizes patient access to individualized care,” said Michael Douglas, CEO at SMIL. “This new, multi-year agreement allows patients with UnitedHealthcare to receive the best, most advanced, and safest medical imaging experience available.”

SMIL has been a trusted provider of diagnostic imaging services for more than 40 years, offering a comprehensive range of imaging solutions, including PET, Nuclear Medicine, MRI, CT, Mammography, Ultrasound, X-ray, and more. With multiple locations across the Valley, SMIL is committed to providing convenient, compassionate, and high-quality care to its patients.

Patients who wish to schedule an appointment are encouraged to visit www.esmil.com or call 480-425-5030 for more information.
